Your situation and next steps

13. Which best describes you right now?

I have many interests and cannot choose.
I have a few interests but don't know what careers fit.
I don't know what interests me yet.
I have one preferred field but am not sure what to do next.

14. What would help you explore a career?

Trying a small real-world activity
Watching demonstrations or learning online
Talking with a student or working professional
Speaking with a career advisor

15. What matters most when choosing a university course? Choose up to two.

Select all that apply, up to two if specified.

My interests and strengths
Job opportunities after graduation
Tuition fees and affordability
Location, transport, and family circumstances

Family expectations
Length and flexibility of study

16. Which learning activity sounds most appealing?

Building or repairing something
Researching a question and testing ideas
Creating a design, video, or story
Teaching or helping someone
Planning a business or leading a team
Organizing data, documents, or schedules

17. What study options could realistically work for you?

Select all that apply, up to two if specified.

A university degree
A lower-cost college or university course
Vocational or practical skills training
Online learning or short courses
I'm not sure yet

18. How ready are you to choose a direction?

I have no idea where to start.
I have several possible directions.
I have two or three options to compare.
I know my preferred field and need a concrete next step.

19. What would you most like to receive from this service?

Suggestions for fields I haven't considered
A comparison of careers and courses
A step-by-step action plan
A chance to talk with an advisor

20. What is one small step you would be willing to take this week?

Try a beginner activity in an unfamiliar field
Research two careers and compare them
Ask a student or professional about their experience
Compare course costs and entry requirements
